

11/09/2024

To whom it may concern,

BT-Industrial is one of the fastest-growing industrial solutions companies in South Africa, and our piping systems business has grown in leaps and bounds, having executed large and complex projects for the likes of Anglo American, Seriti Mines, Steffanutti Stocks, HATCH Engineering, and most recently Palapye Mine in Botswana. BT-Industrial's manufacturing facility is DEKRA ISO 9001:2015 accredited, and our pipes carry both the stamps of SABS SANS 4427:2 and SAPPMA, the South African pipes quality governing body. We are also BEE Level 1 with 25% women ownership.

Based on our rapid production output, we have the capability to supply and add value to large-scale mining, government, and construction projects. We maintain a strong commitment to quality and meeting tight delivery schedules as required by our clients.

We have in place a Distribution Agreement with **PvPower Pty (Ltd)**, based on our long-standing working relationship and mutual commitment to providing high standards of service across South Africa, & the African Continent

Any committed delivery schedules provided by **PvPower Pty (Ltd)** can be relied upon with confidence due to the Service Level Agreements entered into between our organization and theirs.
